SENIOR GRAPHIC AND WEB DESIGNER

As a Senior Graphic and Web designer for a boutique design studio, over the last 7 years NICHOLAS TURNER has designed and worked on projects for some of Australia's leading Financial Institutions and Government Departments.

Main tasks include the design and layout of print ads, application forms, terms and conditions and stationery for a leading Financial Institution. With compliance to all necessary legislative requirements related to these products.

Well established as a proficient web and graphic designer, Nick's skill set and experience exceeds expectations in creating attractive, user-friendly websites and printed material.

Key Duties include graphic design, designing and building websites, update and the general maintenance of websites (including the adding of Metadata), search engine optimisation and making websites disabled browser compliant.

Design work covers finished art, designing ads, stationery, books, magazines and templates. Creation of active form field PDF's, Web Banner advertising and HTML emails for clients. Proofing and releasing print ads via QuickCut, sourcing illustration and photographs for clients.

Nick is dedicated to the provision of outstanding service to both internal and external customers/stakeholders through sound communication, Account Management and Project Management skills; with a strong commitment to meeting strict deadlines. With direct client interaction from brief right through to when final artwork is released.
